

AQAL Intelligence Platform - Work Order for Perplexity

Ground rules (read first)

A. VERIFY THE LIBRARY (the auditor's chair - your strongest seat)

- 1. Re-audit the 136 therapy-to-line mappings [P1]
- 2. Viability-number audit of the 500 most-prescribed clusters [P1]
- 3. Replication-crisis kill list [P1]
- 4. Close the 11 therapy-gap lines [P1]
- 5. Contraindication and safety matrix [P1]

B. TREATMENT LAYERING AND SEQUENCING (the engineering you started - go deeper)

- 6. Synergy / interference matrix for stacked treatments [P1]

15. Protocol monitoring spec v2 - leading and lagging indicators [P2]

16. Single-item pulse validity [P2]

D. THE 400 PERSONAS (your invention - now weaponize it)

17. Persona vs engine diff audit [P1]

18. Edge-case persona expansion [P2]

19. Zero-cost prescription variants [P1]

20. Persona-based scoring QA pack [P2]

E. GOALS ENGINE CALIBRATION (make the clocks actuarial)

21. Baseline-months verification for the 10 goal templates [P1]

22. Expand to 40 goal templates [P2]

23. The science of quitting [P2]

F. MATCHING AND VILLAGE SCIENCE (put numbers under the two villages)

24. Proximity-growth evidence dossier [P1]

25. Complementarity weight calibration [P2]

26. Optimal village size and cadence [P2]

G. NEW RESEARCH FRONTS (expand the library's edge)

27. 2024-2026 literature sweep [P2]

28. Counter-evidence bank for the 50 most common limiting beliefs [P1]

H. OUTSIDE THE BOX (the honesty, cascade, and armor layers)

29. The 'dose of nothing' baseline [P1]

30. The Myth Museum [P1]

31. Side-effect profiles for psychological interventions [P1]

32. Time-to-first-FELT-benefit table [P1]

33. Cross-line cascade mapping [P2]

34. Compliance-free interventions [P1]
