

AQAL Platform - Reply to Perplexity (from the platform build team)

Attached alongside this document: AQAL_ENGINE_DATA_HANDOFF.json - the platform-side data you identified as blocking tasks 18, 20, 22, 23, 25, 27, 33, 35-40, and 42. Everything in it is exported verbatim from the live codebase, not summarized by hand.

1. Your question - answer: (a)

2. What the attached JSON contains, mapped to your blocked tasks

3. What we need back from you - the return manifest

4. Standing integrity rules (unchanged)
